TESTIMONIAL FOR MOFEX

On behalf of Connect by SWDA, we would like to express our sincere appreciation to MOFEX for their strong support and service during our office relocation and temporary storage arrangement.

MOFEX was engaged to facilitate the relocation of our office furniture, equipment, and operational items to StorHub in March 2026 to support our office renovation works. Following the completion of the renovation, their team was again entrusted with the transportation and reinstatement of the items back to our office in August 2026.

Throughout both phases of the project, MOFEX demonstrated a high level of professionalism, reliability, and commitment to service excellence. Their team arrived well prepared, coordinated closely with us before each move, and maintained clear communication throughout the process. They were proactive in their follow-ups, ensuring that all arrangements were carefully planned and smoothly executed.

We were particularly impressed by the care and attention exercised in handling our office items. The team took the necessary precautions to protect and transport the items safely, and all work was carried out efficiently and with minimal disruption to our operations. Their staff were courteous, responsive, and readily assisted with our requests throughout the relocation.

The smooth execution of both the move to storage and the subsequent return and reinstatement of our items reflected MOFEX's experience and dedication to delivering quality service. Their professionalism gave us confidence and peace of mind throughout the relocation process.

We would like to thank MOFEX and their team for their outstanding support throughout the project and would not hesitate to recommend their services to organisations looking for a dependable and professional relocation partner.

Yours sincerely

Karen Ang
Principal Manager
Workforce Services Division
